Project Overview:

Project Name: Booknest:Where Stories Nestle

Project Description: BookNest is an online platform designed for book lovers to discover, read, review, and share books. The platform allows users to browse a wide collection of books across various genres, maintain personal reading lists, and connect with other readers through reviews and recommendations. BookNest aims to create a community where reading is encouraged and made more interactive through social features and personalized suggestions.

Key Features:

- User registration and profile management
- Book browsing and search functionality
- Reading lists (e.g., "Want to Read", "Currently Reading", "Read")
- Book ratings and reviews
- Community discussions and recommendations

Purpose:

To promote reading and build a connected community of book enthusiasts by providing a user-friendly and feature-rich digital library.
